## Class Description

Students will be studying a variety of art forms including drawing, coloring with pastels, markers and crayons, painting with watercolor, tempura and acrylic paint, paper crafting, cutting and gluing, and sculpting with air-dry clay. New material is presented each year for returning students.

## Why study art?

Art is important because it encompasses all the developmental domains in child development. Art lends itself to physical development and the enhancement of fine and gross motor skills. Art has been shown to increase test scores across every subject area. KAT art class is a wonderful atmosphere for making friends and fellowshiping with other Christians.
